◢◢● HIS Mobile

How to use the SIM card

iOS

1. Connect to the internet with Wi-Fi and scan the QR code.
   Or Enter this URL with Safari :

   https://his-mobile.com/support/setting/dm-profile/

2. Download the configuration profile and install.
   Please continue to install when prompted.

3. Tap the settings icon on the Home screen.
   Select [Mobile Data] and turn on [Enable 4G] or
   [Enable LTE].

Notice

1. While you download the Network driver on your phone but
   can't access the link, Please use another browser to install.
2. Please delete the installed Network driver after using SIM:
   settings→general → profiles → delete the Network driver of
   H.I.S
3. Insert your own sim card and restart your mobile phone and
   then use as usual.

HIS Mobile
